The screenshot shows the Visual Studio Code interface. The Explorer sidebar on the left shows the file structure with 'content.txt' and 'readFile.js' under the 'C:\Users\user\Desktop' directory. The main editor window displays the 'readFile.js' file, which contains a JavaScript script to read the contents of 'content.txt'. The script is as follows:

```
C:\Users\user\Desktop> Javascript sem4 > Lab1 > content.txt
1 Twinkle, twinkle, little star,
2 How I wonder what you are!
3 Up above the world so high,
4 Like a diamond in the sky.
5 Twinkle, twinkle, little star,
6 How I wonder what you are!
7
```

The status bar at the bottom indicates the current line and column (Ln 7, Col 1), the number of spaces (4), the encoding (UTF-8), the line ending (CRLF), the text format (Plain Text), and the language (Go Live). The system tray at the bottom shows the date and time (1:05 AM, 2024-02-09) and the weather (3°C, Cloudy).
